

# PERENNIALS FOR SHADE

Many attractive perennials can thrive without full sun. Heucheras with bronze, burgundy, or velvety-purple foliage brighten shady spots, while variegated plants add splashes of cream and white.

## Plant List

- a. Coral Bells (Heuchera) : Zone 4-9
- b. Japanese Painted Fern (Athyrium Niponicum) : Zone 3-8
- c. Hosta : Zone 3-8
- d. Solomon's Seal (Polygonatum) : Zone 3-8
- e. Columbine (Aquilegia) : Zone 3-8

## Before Installing Your New Garden

Will this plan work in your area? You can increase or reduce the footprint by adding or eliminating plants in the garden.

Ensure the plants and plan will grow and thrive in your USDA zone and sunlight.

Add garden soil for best results.
