

PERENNIALS FOR SHADE

Leaves of different shapes, sizes, and textures add interest and excitement to shady spots and woodland gardens. Try combining fuzzy or lobed leaves with larger, crinkled foliage.

Plant List

- a. Brunner's Mantas (*Brunneria Macrophylla*) : Zone 3-7
- b. Lady's Mantle (*Alchemilla*) : Zone 3-8
- c. Hosta : Zone 3-8

Before Installing Your New Garden

Will this plan work in your area? You can increase or reduce the footprint by adding or eliminating plants in the garden.

Ensure the plants and plan will grow and thrive in your USDA zone and sunlight.

Add garden soil for best results.
